

## PENTICTON TO HAVE PARKS COMMISSION AFTER DEC. 31

Penticton city council will appoint a parks commission to take over the duties of the present parks board after Dec. 31, it was disclosed last night.

The new Municipal Act requires elected parks boards to be dissolved after Dec. 31, to be replaced either by a council committee or an appointed commission.

Council last night adopted a recommendation of a special committee meeting that a parks commission be appointed.

The decision was prompted by a request from the Department of Municipal Affairs asking the type of parks administration that Penticton would have after Dec. 31.

## D. Forrest Heads New AOTS Club

A group of 55 men gathered at the United Church auditorium last week for a dinner meeting which marked the beginning of a men's social club known as the AOTS.

A group of 15 members from Vernon and Kelowna AOTS clubs motored to Penticton for the occasion.

After a splendid dinner, served by the Good Companion Circle, under the direction of Mrs. Green, George Melvin, president of the Vernon Club, installed the newly elected executive.

Don Forrest was installed as president, Evans Lougheed as vice-president, Ches Cederstrand as secretary and Dick Chudley as treasurer.

During the installation ceremony, George Melvin outlined the responsibilities of the executive as well as explaining the benefits obtained by each member from this type of club.

Walter Goodland, of Vernon, president of the District AOTS council, along with George Gordon, president of the Kelowna club, outlined the activities of

their respective groups.

During the evening a likely singing led by Jack Scriver, with Sven Norgren at the piano was enjoyed by all.

The executive were empowered at this meeting to form sub-committees to handle all phases of the club's activities as well as arrange future meeting dates, which will be duly announced.

## Pines Service Broken Into, Nothing Taken

Thieves who broke into the Pines B.A. Service on South Main Street in Penticton Monday night, appear to have gained nothing for their pains, reported Tom Scott, manager, yesterday.

Entry was gained by smashing a small window in the rear. The office appeared thoroughly ransacked with files and other articles strewn about the floor and the empty cash register open.

## Chairman Resigns, Runs for Chairman

OSOYOOS—Harry H. Hesketh, chairman of the village commission here, has resigned his post in order to run for the same office in the civic elections next month. He is continuing in the post till the end of the year.

## Extra Lights For Christmas

SUMMERLAND — Municipal council has agreed to the board of trade's suggestion that colored street lights be extended down the main street to Rosedale Avenue during the Christmas season.

Regarding a request for extension of permanent street light standards, council decided to wait until a sidewalk had been built from the Super Valu to Rosedale and after the proposed new Imperial Oil Service Station had been erected on the corner, which is expected to be early next spring.

Replacement of the lights on the main streets with whiter, brighter lights will be considered. The letter from the board of trade regarded this as a safety factor.

Street lights will be extended in Trout Creek from the Church of God to A. C. Johnston's corner and then on to J. Y. Towgood's. Decision was withheld on street lighting from L. A. Smith's east on Jubilee Road to Highway 97, pending connections to the new Co-operative Growers' packing house.

Mrs. J. B. Wagner, president of the Okanagan Dorcas Welfare Federation. New officers elected for the ensuing year were: president, Mrs. W. B. Streifling; assistant president, Mrs. P. Mattson; secretary, Mrs. J. B. Wagner; other officers, Mrs. A. Hubley and Mrs. P. Spangler.

A special feature was the showing of the sound movie "Tornado" depicting the activities of Seventh-day Adventist Relief Agencies during recent tornadoes in the eastern States.

Among those attending from Penticton were Pastor and Mrs. R. A. Hubley, Mrs. Charles Lamb, Mrs. A. Scott, Mr. and Mrs. W. M. Reith, Mrs. M. Serack, W. T. Rabuka, Mr. and Mrs. B. Wolfe.

## Church Urged to Be Ready for Disaster

"When disaster strikes we should be prepared to give assistance to our immediate families and to the community," declared Desmond E. Tinkler, secretary of the Health and Welfare Services of the British Columbia Conference of Seventh-day Adventists, speaking at the federation meeting of the Dorcas Welfare Societies of the Okanagan Valley in Kelowna last Sunday.

"We must put forth every effort and be prepared to serve when the emergency arises," Plans for stockpiling were formulated in which each church will stockpile clothing, bedding, canned foods and first aid supplies. Churches and families are urged to be equipped with first aid and survival kits.

Presiding at the meeting was

## Tourist Camp Bylaw Claimed Unreasonable

Penticton's tourist camp regulation bylaw may be unreasonable in its requirements for sanitary facilities in trailer parks and motels, it was suggested at city council meeting last night.

Council was told that the tourist camp bylaw requires almost twice as many toilets for motels and trailer camps as are required for other buildings by provisions of the building bylaw. Both the city's building inspector and the sanitary inspector would like to see a modification of the tourist camp regulations to bring them more in line with the building bylaw requirements, it was reported.

The sanitary inspector and building inspector are to be asked to attend the next council meeting to discuss the matter further.

### SAME AS OLD ACT

Aldermen, however, pointed out that the tourist camp bylaw had the same toilet requirements as the Tourist Regulation Act before it was repealed and had been in effect for many years. "There is nothing wrong with setting higher standards for auto courts and trailer parks than for hotels and other buildings," observed Ald. J. G. Harris.

Ald. P. F. Erat thought that in one respect the city's tourist camp bylaw did not go far enough. He felt that sewer connections should be provided for

each trailer in a trailer camp.

Other aldermen thought that the present regulations were sufficient although they would require enforcement "in two or three cases."

### REQUIREMENTS COMPARED

The toilet requirements for motels and trailer parks now are one for the first seven persons, two for eight to 15 persons, three for

16-25 persons, four for 25-35 persons, five for 35-50 persons and one more for each additional 15 persons over 50.

Requirements under the building bylaw, however, are one for the first nine persons, two for 10-24 persons, three for 25-49 persons, four for 50-100 persons and one more for each additional 30 persons.

SEVERAL PROMOTIONS WERE ANNOUNCED by O. J. Zavitz, Asst. Vice President and Calgary Division Head supervising the four Western Provinces, at a reception held in his honor by local employees of Canadian Acceptance Corporation Ltd., in the Hotel Prince Charles Tuesday. Seated, left to right, are Wes Wensley, district manager, Mr. Zavitz and Ted Waterman, former office manager promoted to collecting

manager. Standing, left, is George Rash, former collecting manager now promoted to office manager in Calgary and Michael Dunkley, adjuter. Mr. Rash and Mr. Waterman will take over their new posts on Dec. 1. Mr. Zavitz has been with the firm 20 years and before his promotion as supervisor of the four Western Provinces, was zone manager in Toronto.

## Best Fruit From Low Nitrogen Treatments

Tests on proper rates of nitrogen in apple tree fertilization, factors influencing tree fruit maturity in the fall, and a vacuum technique for manufacture of jam have been conducted at the Summerland Experimental Farm during the past two months.

The fertilizer tests showed that fruit from trees with low nitrogen treatments was of better eating quality and had more attractive ground and flesh colors than fruit from high nitrogen treatments.

Ammonium sulphate was applied to mature McIntosh at 0, 5, 10, 20, and 25 pounds per tree by a Keremeos fruit grower. The fruit was harvested and graded under experimental farm supervision. Results showed that high nitrogen treatment also results in an undesirable green ground and flesh color.

**TERMINAL GROWTH GUIDE**

A good index of the correct amount of nitrogen to use is the terminal growth which should be from 10 to 12 inches in apples, the tests showed.

The fruit tree maturity experiments were conducted in view of the extensive interest in fruit tree maturity in the fall following the heavy freeze that hit the Okanagan Nov. 11, 1955, injuring the least mature trees the most.

The experiments indicate that in order to obtain good maturity of fruit trees, the grower should not apply so much nitrogen as to induce a high degree of vigor and should not cultivate in the summer or early fall.

For purposes of the experiment, different cover crop treatments were started in the spring of 1957 in a block of 313 young Veteran peach trees on the experimental farm. The crops were Kentucky blue grass, alfalfa, ladino, clover and vetch with cultivation up to August and clean culture with herbicides.

An examination of leaf color was made Oct. 26 with tree maturity being assessed on the basis of disappearance of the green color.

**WIDE VARIATION**

A wide variation of tree maturity was found caused in part by cultural treatment and in part by difference in tree vigor. All four

of the cover crop treatments produced good maturity but the cultivation treatment did not. Most of the tree leaves were still quite green when examined. The same held true with the herbicide treatment.

Within each of the six treatments there was considerable variation in tree maturity, and also in tree vigor as indicated by length of the terminal shoots. Greater vigor in the trees was accompanied by poorer maturity in the fall.

Favorable results were obtained in tests for employing a vacuum technique for apricot, peach and prune plum jams. The results indicate that the vacuum product has better color and flavor retention than by the open-kettle method, although the flavor difference is not too pronounced with apricots and plums. The delicate fruit flavor of peaches was much better retained by the vacuum technique, however.

With these fruits two to three times the pectin required in open-kettle jam is necessary to produce a satisfactory set under vacuum conditions. As the heating time above 160 degrees is

negligible and there is no severe pulping of fruit during the process, fruit pieces tend to retain their shape and wholeness. Wherefore the fruits should be cut or sliced into small pieces to prevent the appearance of a preserve-like product.

All vacuum jars require addition of invert syrup wherefore the proper invert-sucrose ratio in the finished jam must be ensured. Very little sucrose inversion occurs during the process due to the low temperatures employed. Generally vacuum jars require two to three times as much invert syrup as the corresponding open-kettle formulation.

## Introducing MIGHTY MERCURY TRUCKS

FOR 1958

**PAYOFF PROVED**  
MERCURY TRUCKS

They're here... the greatest lineup of mighty Mercury Trucks in history! Pickups to panels, tandems to tiltcabs, these are the trucks that have earned a nationwide reputation for paying off. They're payoff proved — in power and performance, in safety and styling, in economy and comfort — in every way that counts!

And now, new mighty Mercury Trucks are ready to pay off bigger and better than ever with a load of new profit-packed features for '58. New handsome styling pays off in prestige; new Six and V-8 engines pay off in extra power and lower fuel costs; new Quadri-Beam headlights pay off in safer night driving—these are just a few! For the full story on new payoff proved mighty Mercury Trucks for 1958, see your Mercury Truck dealer right away!

Good for a limited time only—so buy now!

Enjoy tea as it should be at a wonderful saving. Not just tea but famous Nabob "Green Label" Tea in handy tea bags—so quick and convenient. Nabob—the favorite tea for fine quality, flavor, and full, satisfying strength.

"Tea as it should be!"

# No Green Light Yet for Lagoon

A letter from the Department of Highways gave Penticton city council little hope last night of succeeding in its efforts to have a proposed alternate Highway 97 route west of Okanagan River, go around the 80-acre tract of low-lying Indian Reserve property that the city wants to lease for sewage lagoon purpose.

However, council was optimistic that the affair would be settled satisfactorily. Last night's letter from the department, addressed to Mayor C. E. Oliver, made no mention of the second highway routing suggestion put forth by a CPR engineer, and council felt the department's attitude would be different after this had been considered.

## Order Debris to Be Removed from Park

A Skaha Lake resident who is charged with dumping materials and land-clearing debris on city property that has been dedicated for park purposes, is to be given 30 days to remove the litter.

Failing removal of the debris by the owner, it will be removed by the city with costs to the owner.

The debris was reported dumped on city property while the resident in question was clearing his land for construction of a dwelling.

## FEDERAL BUILDING BEING CONSIDERED FOR OLIVER

OTTAWA (CP)—Works Minister Green said yesterday his department is considering the construction of a new federal building at Oliver.

He said in the Commons, however, that he is not in a position to state if and when any action will be taken. He was replying to a question by Frank Christian (SC-Okanagan-Boundary).

## Council Briefs

### NO ANONYMOUS LETTERS

A letter signed only as "Lone Wolf" was rejected by Penticton city council last night without reading. "If they can't sign their name to their opinions, we don't want to hear them," declared Ald. P. F. Erout.

"Newspapers won't accept anonymous letters and I don't see why we should," agreed Ald. A. C. Kendrick. The letter was consigned to be "tossed into the wastepaper basket."

### SEWAGE PLANS

Penticton city council intends to install a sewage system in the upper Carmi Avenue-Duncan Avenue section as soon as it can be arranged. Council gave this assurance last night to C. E. Lackland who requested it to add weight to his application for a CMHC loan for building in this area.

### UNIFORM LICENCES

A recent meeting of trade licence inspectors from Vernon, Penticton and Kelowna agreed that scale of trade licence categories and fees should be basically the same in the three centres, council was informed in a letter from its licence inspector. Another meeting is to draw up

a suggested basic scale for the three centres.

### SALE OF ROAD ACCESS

A letter from Boyle & Co. on behalf of W. E. Bonford who has applied for purchase from the city of road access to his property at Three Mile Road, was tabled. The letter asked what council's decision was on the request. Ald. A. C. Kendrick said the city assessor is to set a price on the property.

### RAFFLE APPROVED

Carmi Avenue P.T.A. was granted permission to hold a doll raffle at its fall bazaar in the school activity room, Nov. 25. Value of the prize was given as \$10.

### APPOINTMENT REAFFIRMED

Ian Sutherland was reaffirmed as council appointee on the zoning board of appeal.

### JANITOR NAMED

W. Green was formally appointed city hall janitor, succeeding Art Davies who has retired. Salary is \$155.40 per month.

### SLAPPING TREES

A report of dangerous trees whose branches slap pedestrians in the face as they walk along the new sidewalk on the east side of Fairview Road, was referred to the parks superintendent for attention.

### NEW PARK SITE?

Referred to the advisory planning commission was a suggestion from the parks board that 10 acres be purchased for park purposes in the Farrell Street, Johnson Road, Middle Bench Road area.

## Richard Stach Heads Lutheran Young People

Richard Stach of Penticton was elected president and Jean Miller, secretary, of the Okanagan Lutheran Young People's Association meeting in Penticton Monday.

The day long sessions in the IOOF Hall, included panel discussions on "What should young people look for in a prospective mate?" and "What do Lutherans Believe?"

Rev. W. Krenz of Trail was guest speaker at the opening services and the mass meeting, attended by Lutherans from Kamloops, Vernon, Kelowna, Summerland, Oliver and Osoyoos as well as Penticton, concluded with a banquet in the IOOF Hall.

## Fire Starts Under Dwelling

OSOYOOS — Considerable fire, smoke and water damage was caused to the home of Mads Jensen, Osoyoos village foreman by a stubborn blaze originating under the house.

The fire burned through the telephone wires before it was discovered. Then Mr. Jensen had to drive over a mile to turn in the alarm.

The blaze was largely confined to under the house by Osoyoos volunteer fire department but managed to burn through the floor in one spot and sweep up the walls of one room.

A LIBRARIAN SINCE 1926, Mrs. Jessie M. Van der Burg is as enthusiastic today as she was then for her daily task enables her to aid citizens in their selected careers. She has worked in libraries in the United States and Canada. One

of the main reasons for continuing to find employment as a librarian has been her love of meeting people. Mrs. Van der Burg has been librarian at the Okanagan Regional Library Branch in Penticton since July of this year.

## SERVING THE PUBLIC

# Library Work Helps Others Help Selves

By LEN WALKER

A librarian's work is a challenge to help citizens become proficient in their selected careers, as well as to make good use of their leisure time. It is because of this that Mrs. Jessie M. Van der Burg, a certified librarian, has found her life's work so fascinating.

Working as librarian since 1926 except for brief stints in other fields, Mrs. Van der Burg is as enthusiastic today as she was 31 years ago as she goes about her daily duties serving the citizens of Penticton in the Okanagan Regional Library Branch at 45 Wade Avenue East.

Born in Ontario, Mrs. Van der Burg began her library career for librarians, she set her sights with a position in Portland. Realizing the excellent opportunities on attending a top-ranking school. B.A. FIRST STEP

First, however, she studied for her Bachelor of Arts degree, a must before entering school. After a two year stint in Portland Mrs. Van der Burg enrolled at Pratt Institute of Library Service in Brooklyn, New York, a school rated as one of the finest on the continent.

Remaining at the school for the next five years, Mrs. Van der Burg studied hard and took extra courses in history and other subjects in order to become a certified librarian.

On graduating from the Institute she spent three months in Europe where she visited libraries in France, Italy, Switzerland, Germany, Belgium, Holland and England.

While in Europe Mrs. Van der Burg recalled seeing many old manuscripts in both Florence and Naples. These she said were rare but have been read and re-read by hundreds of people.

Before leaving England for her return trip to Canada she was offered three library posts, one in Kalamazoo, Mich., and the others at Portland and Tuxedo, N.Y. However, she accepted a position at the library in Malheur county, Southeast Oregon.

Being a librarian for an area of 10,000 square miles was no easy task. She had to service 25 library stations and 60 schools. Longest distance to travel was 200 miles, done by car.

Mrs. Van der Burg remained as librarian in that district for three years leaving in 1931 to return to Canada. Here she accepted a position offered by Dr. Helen Stewart, director of libraries in the Fraser Valley.

This was a new experience for her as the Carnegie Demonstration Regional Library with headquarters in Chilliwack was the first regional library in Canada.

### LIBRARIAN AGAIN

Deciding to again return to the library work she took a position in the Vancouver library system, opening a branch at Kerrisdale where she remained for two years after which she spent another two years as librarian of the Gordon House branch in the West End, Vancouver.

After making a trip through the Okanagan in 1950, both Mrs. Van der Burg and her husband fell in love with Penticton. The city reminded her of Oregon with its bright days and clear nights. She once again retired from library work and with her husband took up residence in Penticton in 1951.

However the urge to continue library work remained and she accepted the Penticton post in July of this year. Admitting she could write a book on library work, Mrs. Van der Burg said she is being well rewarded in the opportunity to meet and talk with people from all walks of life.

### MOSQUITOES AND MUD

Mrs. Van der Burg's most vivid recollections of her four years spent in and around Chilliwack were the mosquitoes and the mud.

Mrs. Van der Burg's next stop was Vancouver where she became librarian for the Medical Association. It was here that she found reference work very interesting. She continued as librarian at the medical centre until her marriage to William Van der Burg in 1940.

Now Mrs. Van der Burg left the librarian field for her new occupation of housewife, traveling with her husband to Gun Lake in the Bridge River district where for the next two winters and three summers they operated a fishing lodge.

With the outbreak of World War II and a slump in business they returned to Vancouver. Taking a job with the Union Steamship Co. enabled Mrs. Van der Burg to try her hand at writing. Within six months she wrote a

## No Extra Bruising With Bulk Handling

Use of bulk bins will not increase cullage from bruising and under certain conditions, may even reduce this type of cullage.

This is indicated in tests conducted at the Summerland Experimental Farm by D. V. Fisher and A. D. McMechan.

In the test two lots of McIntosh apples were picked by the same pickers in each of four orchards. One lot consisted of five, 25 bushel bins, the other lot of 125 one-bushel boxes.

These were delivered to the packing houses and each pair of lots handled in the same way, some being graded immediately, others being held from seven to 38 days before grading. Sampling was done during dumping by drawing five, 25 apple samples from each 25-bushel bin or group of boxes. Pressure tests were also taken.

Results clearly showed that when fruit is handled within 24 hours, the bins yielded less bruising than the boxes. When the fruit was held for seven days or longer, bruising increased in both bins and boxes.

Under these conditions there was shown to be no real difference between bruising in bulk-handling bins and the ordinary

# Peach Festival Shows Profit of \$2,281.99

A highly gratifying year was reported to Penticton city council last night by the Penticton and District Peach Festival Association.

W. A. Rathbun, festival president, and Merv Allen, secretary, presented the 1957 financial statement showing that the Peach Festival made a profit of \$2,281.99 on this year's operations after paying out \$1,052.85 for capital expenditures.

This made it possible for the association to pay off another \$2,300 of its bank loan leaving only \$2,200 still to pay of the \$11,000 deficit that faced the association in "the dark days of 1954."

In addition there is a cash balance in the bank of \$504.14 with which to start 1958 operations, leaving an actual deficit position now of \$1,695.86.

Total revenue from the 1957 festival was \$8,134.76 which included \$3,316.74 from the Rotary Industrial exhibition, \$2,652.97 net proceeds from the midway, and \$489.56 from the square dance jamboree in addition to the city of Penticton grant.

"It's tremendous," commented Ald. J. G. Harris.

"It's tremendous," agreed Mayor C. E. Oliver.

Council accordingly passed a hearty vote of thanks to the Peach Festival Association for its complete report. A second vote of council paid tribute to the work of Merv Allen, secretary-treasurer of the association, who has donated his services as auditor for the past three years and was described by Mr. Rathbun as "one of the backbones of our organization."

The association's financial statement showed total expenditures, both capital and operating, were \$5,852.77 of which \$1,701.03 was spent for administration; \$39.30 for the parade; \$639.20 for publicity; \$777.43 for the agricultural exhibition; \$542.47 for the queen's promotion and \$106.25 for the variety stage show.

Mr. Rathbun noted that the 1957 show, in accordance with a recommendation from the 1956 directors for stepped-up entertainment, a nine-act grandstand show was staged Friday and Saturday nights with a Saturday at-

### MORE VISITORS

"There were more visitors attending our show than ever before," Mr. Rathbun continued. "Hundreds of them told us how much they enjoyed the Peach Festival week and the show we provided. They will be back again and again."

He added that "even bigger and better" shows must be provided in future years but to accomplish this, more local support is needed.

"The Peach Festival is one of our permanent assets and it definitely helps our economy," he concluded. "Every business man

and every individual in the city benefits directly or indirectly by this activity."

Tribute for the work of arranging the manifold phases of the big show was paid by Mr. Rathbun to the 15 directors responsible for the management and direction of the whole show, the ladies auxiliary to the Peach Festival, Penticton Jaycees, Penticton Rotary, Penticton Kiwanis, Penticton Board of Trade, Penticton United Commercial Travellers, the Peach City Promenaders, the Aquatic club, the mayor and city council, parks board, Penticton school board and many others.

## CITY & DISTRICT

Wednesday, Nov. 13, 1957 THE PENTICTON HERALD 3

## Resident Must Pay For Flume Removal

Policy of charging property owners with all costs except half of the pipe installed when an irrigation flume is replaced with an underground pipe, was reaffirmed by Penticton city council last night.

G. A. Alderson of the Twilgh Drive-In Theatre, requesting removal of about 90 feet of flume on Main Street South opposite his establishment, proposed that he would do the dismantling of the flume, ditching, backfilling and grading at his expense, if the city would supply the pipe, and install it at city expense.

This provoked some doubt on what council policy was on such matters. A quick search of records showed that where removal of flume had been requested, the property owner concerned was required to pay all costs of flume dismantling, ditching, backfilling and grading as well as half the

cost of supplying and installing the underground pipe.

### STICK WITH POLICY

Council decided to stick with this policy. Accordingly if Mr. Alderson wishes to proceed with the work he suggested, he may do so under supervision of the city works superintendent providing he posts a performance deposit and pays for half the cost of pipe to replace the flume and its installation.

It was suggested this policy might be too strict since removal of flumes removes "eyesores on the landscape" and thus benefits the city as well as the individual property owner.

However council agreed that if the policy were relaxed to any great extent, the city would be besieged with a multitude of requests for flume removal far beyond its financial resources.

## Water Reveals Whisky's true Flavour

Water (plain or sparkling) is your most reliable guide to the whole truth about any whisky. Water adds nothing, detracts nothing, but reveals a whisky's true natural flavour and bouquet.

This advertisement is not published or displayed by the Liquor Control Board by the Government of British Columbia.

## BEST OF B.C.'S BUMPER CROP!

From the size 2 to the size 5 peas, every can of Royal City Peas is as delicious as the next, every pea is tender and tasty! Each size has peas that are perfectly matched, picked and packed at the fleeting moment of vine-ripened perfection! And delicious Royal City Peas can be your menu maker in so many different ways. Flavor them delicately with mint leaves to serve with lamb. Or combine with Royal City

Corn for appetizing color. Add them to meat and fish casseroles, or to light and fluffy souffles. Such easy ways to brighten meals! But, reach always for peas with the Royal City label - they're B.C.'s finest!

**ROYAL CITY**  
B.C.'S OWN - B.C.'S BEST

## Entire Interior Mourns Kelowna Mayor's Death

Kelowna's sorrow in the loss of a popular chief magistrate is shared far beyond its own civic boundaries.

The untimely death of Mayor Jack Ladd means that we are all the poorer, in the interior, for we shall all miss the value of his constant efforts on behalf of his fellow residents.

A staunch worker for his own city, where he had been the mayor for six years and a council member for fifteen, Mayor Ladd also had the wider perspective before his eyes. He was a valuable participant in the affairs of the Union of B.C. Municipalities and a director of the Canadian Federation of Mayors and Municipalities. His business interests were local and, in some other respects, valley-wide.

Today, in Kelowna, there are many monuments to his zeal in the form of buildings and developments. His in-

fluence, over the years, helped mightily to make the Orchard City indeed bear a fruitful crop of civic values.

Mayor Ladd had reason to know he wasn't in the strongest health, that his heart could not be overtaxed. Yet he continued to carry out his function as an active chief executive and to be unstinting of his time and energy. The demands of municipal office, we are once again reminded, are as exacting as any forced upon the public servant. In this same year both Penticton and Kelowna have lost their mayors while in office.

The example established by such a worker as Jack Ladd needs no further embellishment or elaboration. His was a record of faithful service and the closing of his book, even at what seems a too-young age, finds it full of value.

## Peace Without Faith

Adding a grim note to the sombre proceedings of Armistice Day was the announcement by the United States that nuclear-bomb-loaded planes stood waiting on runways around the world, their crews resting close by.

There is no alternative for the free world, of course, but the very contradiction of remembering the dead from two great wars while young men similar to those already slain await the signal to plunge the world once more into global conflict, is appalling.

But so it must be for years to come unless mankind can find a mutual faith. At present the West cannot

trust Russia. The giant bear of the northlands has all too often revealed itself as a violent aggressor to be watched over with loaded rifle.

By similar token Russia will not trust us. Rightly or wrongly, and we believe wrongly, the Soviet feels our leaders plot the downfall of that far land.

Whatever faith we hold in these trying times must have been sadly weakened on Monday by the thoughts of our prayers mingling with the roar of bombers awaiting the call to hatch their lethal loads.

## Canada's Defence Problem

There is perhaps nothing more confusing, more difficult to determine, than the course that defence preparations should take. Should all the eggs go into one nuclear basket, or is there still wisdom in spreading them in conventional fashion? For a nation like Canada, with strictly limited resources, the dilemma is a sharp one.

The Soviet's globe-circling Sputniks have caused Lieutenant-General Guy Simonds, the former army chief of staff, to return to his complaints about the military effort. General Simonds' strongly-held views were the reason for his retirement and his sincerity is not to be questioned. Yet even he is contradictory. He calls for a scrapping of supersonic fighters because these are outmoded by ballistic missiles, while arguing that limited wars are likely which would involve conventional weapons. He advocated transport planes for troops while pointing out that the Russians can drop a thermonuclear warhead anywhere on the globe. These inconsistencies emphasize the tangled nature of military planning.

The general thinks that the nuclear stalemate makes atomic war immovable, which surely implies that fast

fighter planes cannot then be obsolete. If as he believes there is increased danger of medium-scale war, and that a trained militia is still essential, it is surely strange to pour scorn on the radar networks as a "Magnet Line." Incidentally the Magnet Line was turned in 1940 but never breached.

This is not to denigrate General Simonds, the best-witted Canadian general of the last war, but to show the confusion of mind that besets all military planners. In West Germany for instance the military thinking of that nation is concerned with tanks, which would seem a backward emphasis if ever there was one except for one fact; the Soviet Union is believed to have in their European satellite countries some 34,000 tanks. The Russians apparently have not put all their eggs into a nuclear basket.

The problem is therefore not an easy one for Canada's defence department. In choosing weapons a risk must be taken: one can only hope the risk is well calculated. And the situation is not helped by the fact that military experts themselves disagree on the best course to pursue.

## Wire Tapping in the Modern State

Wire-tapping became an issue in Britain during the past year following disbarment of a lawyer whose line had been tapped during a conversation he was having with an alleged member of the underworld. The authorities passed on the conversation to the Bar Association, which took action against the lawyer. Objection to the procedure was raised in Parliament, mainly on the grounds that wire-tapping is an invasion of privacy. It can also be argued that wire-tapping, when used against a person, violates the principle that a man should not be required to give evidence against himself, even though in this case he gives it inadvertently.

A tribunal set up by the government to study the issue has now reported, and its conclusions are interesting. They form a compromise between the need to maintain state security, especially in a period when espionage and subversion are intensively practised, and the equal need to maintain inviolate the rights of the individual.

The tribunal recommends that information obtained from wire-tapping should not be disclosed. In the case of the disbarred lawyer, for instance, the information collected should not have

been passed on, if his wire should have been tapped at all. In cases where espionage and subversion within the government machinery are involved, wire-tapping is justified. Wire-tapping, in other words, should be highly selective, and where it is used should not be considered as evidence in itself but merely as an aid to obtaining further evidence.

It would probably be best if no wire-tapping at all were permitted, for however selective the authorities may wish to be, a successful invasion of privacy in one instance becomes a temptation to invade privacy in others. It used to be that one notable distinction between the West and Russia or Nazi Germany was that in the West an individual felt free to speak as he wished, without fear of hidden microphones. The principle of free speech underlying this distinction should be preserved at almost any cost. In the West, as Mr. Adlai Stevenson noted in the 1952 United States election campaign, to preserve the state by undemocratic means is to burn down the barn to get rid of the rats. In any wire-tapping activities, this fundamental point should never be lost to sight.

—Ottawa Citizen.

MOONLIGHT AND ROSES

## INTERPRETING THE NEWS

### Strongest Talk From Political Leaders

By DAVE MCINTOSH  
Canadian Press Staff Writer

Some of the straightest and most sensible talk on Western military strategy has come from a NATO parliamentary group.

Unfortunately, the NATO parliamentary assembly, the alliance's chief civilian advisory body, wields practically no influence at all. The NATO show is run by the military and foreign policy spokesmen for the 15 governments concerned.

The 14-member Canadian delegation to the NATO parliamentary assembly, now meeting in Paris, comprises, back-benchers from all political parties in the House of Commons. Previous journeys abroad by the Canadian delegation have been regarded in Ottawa as merely overseas

junkies. Not because the members are insincere but because their words—at least until now—have carried no weight in the high councils of NATO.

The blunt talk comes in a report prepared by Arthur Gilson of Belgium and Lt.-Gen. Michael Calmeyer of the Netherlands for the parliamentary assembly's military committee.

In essence, it charges that NATO has placed too much reliance on nuclear weapons and far too little emphasis on conventional ground forces.

The European members of NATO naturally enough do not want to conduct an atomic war in Europe. Even if they won, their countries in all likelihood would be reduced to radioactive ruins.

Canada has paid lip service—but little more—to the need for strong conventional ground forces in Europe. Canada originally was asked to supply a 15,000-man infantry division but has supplied only a 5,000-man brigade.

NATO now has only some 15 divisions in Europe compared to the original target of 90 and to the scaled-down goal of 30.

Canadian military leaders believe strong ground defences would be needed to force any attacking Russian army groups to

concentrate for a breakthrough. Once they were concentrated, they would be suitable targets for atomic bombs.

But without strong forces before them, the Russians could advance in deployed fashion right across Europe and atomic weapons would serve only to destroy the countries through which the enemy was passing.

**CLOSER INTEGRATION**  
The Europeans naturally are also concerned that only the United States and Britain have nuclear weapons. They believe, and probably rightly, that the U.S. and Britain would employ them as they—and not NATO—saw fit.

The only solution would appear to be closer integration of NATO members, especially in the political, economic and scientific spheres. But closer co-ordination was recommended last year by a special NATO committee without evident result.

Now Britain and the U.S. are reported preparing plans for a linkup of NATO with other free world alliances such as the Baghdad Pact and the Southeast Asia Treaty Organization.

Perhaps it would be a good idea for NATO to get its own strategy in order first. Much will depend on the outcome of the NATO summit meeting in Paris next month.

## VICTORIA REPORT

### Legislature Opens In Two Months

By JAMES K. NESBITT  
VICTORIA—It seems quite impossible to believe, but about two months from now the 1958 session of the Legislature will be underway.

Preparations are now being made, the cabinet ministers are working on their estimates, trying to cut them down, the Premier's working on his budget, the Government House staff is busy on plans for the State Dinner and the State Ball to be held at the Empress Hotel, there being no Government House, it having burned down last April.

There's to be a new Mr. Speaker next session, Mr. Hugh Shantz of North Okanagan, and three new members, elected in by-elections last September in Cariboo, Delta and Burnaby—two of them S.C. and Burnaby—one a C.C.F'er, which proves a new that this province is now predominantly S.C. and C.C.F.

How can anyone say it's otherwise, when there are but two Liberals, and not a Conservative, in the Legislature?

As we look at the forthcoming session, the big question is this: Will M.L.A.'s be able to debate the Sommers case?

If the Sloan report is filed with the Legislature they will. If not, they won't. It seems impossible at the moment to see how the Chief Justice can have this report ready for the session, but he's a fast worker, and it might be done.

**FACT-FINDING COMMISSION**  
Next spring an important fact-finding U.S. commission will travel through British Columbia to Alaska.

This commission has already met in Victoria with Premier Bennett and members of his government. It was set up by the

U.S. Congress and the appointments to it were made by President Eisenhower.

Chairman is Louis Rothschild, under-secretary of commerce for transportation, and co-chairman is Washington State Senator Warren G. Magnuson, who knows B.C. well.

The duty of the commission is to find a new land route—railway or highway—to connect the U.S. northwest and Alaska, and there's only one way to do it—through B.C. The present routes are too remote from Seattle.

From the discussions already held, and the fact that the U.S. may come a decision by the U.S. to extend B.C.'s P.G.E. northwest to Alaska, which would be a great thing for B.C.

## OTTAWA REPORT

### Columnist Hosts Federal Members

By PATRICK NICHOLSON  
Special Correspondent to The Herald

OTTAWA—Members of the House of Commons generally keep company only with fellow-members of their own party. Debating in the Chamber, working in their parliamentary offices, eating in the restaurant or even coffeeing in the cafeteria, Conservative sits with Conservative and Liberal sits with his like.

If one were to judge by the words sometimes used in debate, and by the stormy scenes of anger and disagreement when members of diverse parties mix together, they might well be expected to "mix it."

But, with some notable cases of bitter personal animosity, a mature broadmindedness covers our politics today, and M.P.'s are mostly happy and able to mix together in a manner which would have been impossible in our grandfathers' time.

I was recently the cook who mixed Tory and Grit eggs, C.C.F. pepper and Soerod salt into one omelette, and a delicious and pleasing morsel it seemed to become.

The occasion was a reception at which my guests of honor included the M.P. from every constituency, and the Senator from every district, where a Thomson newspaper circulates.

My forty-three M.P. guests covered the whole range of the House of Commons; from Conservative Prime Minister John Diefenbaker of Prince Albert to Social Credit rookie F. C. Christian of Okanagan Boundary; from Liberal old-timer Blake Huffman, of Chatham, to C.C.F. newcomer Murdo Martin, of Timmins.

Earlier that day Nanaimo's Colin Cameron (C.C.F.) had been sarcastic, and bitter about the Conservative Government while speaking in Commons. But after the day's labor was completed, he moved contentedly for refreshment into the room where my guests also included Justice Minister David Fulton, from his own province but of the party he had criticized.

Among the Senators who attended, ex-Cabinet Minister Ross Macdonald, the former Liberal M.P. for Brandon, was his usual cheery and suave self. Seeing Senator Nancy Hodges, of Victoria, reminded me of the first time I had met her, when as the only Lady Speaker in Commonwealth history, she presided over the legislature of British Columbia, a striking and elegant figure in her robe of office and triicorn hat.

It would be discourteous to say that P.E.I.'s Senator Elsie Inman reminds me of a bygone era, for she certainly neither looks nor is in a class very seldom seen in our modern brusque and slapdash days.

**THE EDITORS CAME TO**  
To meet their own and other Members, I had also invited the editors, publishers and general managers of the Thomson newspapers, as well as President Ken Thomson and other top executives.

Thus Tom Wilson from Ottawa was able to greet his former fellow-backs-per-week assistant who is now \$27,000 per year Law Minister Hon. Michael Starr. And thus Hon. Justice M.P. "Scop" Levey was welcomed by his former colleagues of the Times-Herald Jack Slaght, now editor-in-chief at head office, and Jim Lamb, now general manager at Orillia.

Wendell's famous surgeon and M.P. "Doc" McMillan talked with the Tribune's publisher, Henry Foster; Quebec City's Gwynllyn Dunn, publisher of the oldest English-language newspaper in North America, swapped memories with septuagenarian ex-publisher Senator Rupert Davies; and Welsh immigrant Gwyn Kinsey, now editor at Oshawa, noted in that wealthy Senator how his countrymen can succeed in this land of opportunity.

There were of course several regretted absentees. Samia's "Murph" Murphy was just leaving for India where he will represent Canada at the Commonwealth Parliamentary Conference; Woodstock's Wally Nesbitt was speaking for Canada at the United Nations general assembly; Senator "Chubby" Power of Quebec City was out of town; and Sudbury's Mike Pearson was touring the prairies on a speaking tour and, in his own words, being "coy" about declaring himself for the Liberal leadership, for which Ottawa has already made him an odds-on favorite.

## Letters

IN DEFENCE OF SOCRATED SYSTEM  
Penticton, B.C.

Sir: Oh! consistency, thou art a jewel. You attack Mr. Low (Nov. 5) for suggesting modernization of a 17th century financial system to conform with the 20th century scientific age taken advantage of in the new "Herald" office. Your defence of the Governor of the Bank of Canada (a cog in the wheel of international finance) a civil servant, was chivalric, lacking, it seems, in support of the Queen publicly insulted by Altricham.

You claim (1) Monetary experts are extremely able persons of a delicate nature. (2) The soundness of it and its integrity. (3) The Bible as its defender.

(4) Four times has the Bank of England been insolvent; 1847, 1857, 1866 and 1914. But a Governor's wink and a Chancellor of the Treasury nod brings a note from latter to former relieving the Bank of all obligations, and the Bank Charter Act. With much profit was the last financial halt preventing a general economic collapse, when the Currency and Bank Notes Act became law on August 6th, 1914.

The government issue of Bradbury 11 and 10/- interest free notes to save England challenged and endangered the whole delicate private banking fabric built up since 1694 by the Bank of England. Banks in borrowing \$13 million became solvent and arrogant forcing the government to lease government war to them. money. Parliament had given them full power to create themselves.

1915 saw set up a Committee on Currency and Foreign Exchange under Lord Cunliffe, Governor of the Bank of England, who with 12 leading bankers recommended "restoration of the gold standard without delay." Put into effect in 1925 it was abandoned in 1931 to save the country from economic ruin.

(2) No one denies its delicacy. It depends on confidence.

(3) Any financial system unit of purchasing power varying from day to day is dishonest. (4) It has been condemned by Christ and Church Canon Law, and is unhelpful to fellowship and peace.

—T. W. BRIDGES

**Sweet'n' spicy**  
... and so delicious!  
And easy to make, with Fleischmann's Active Dry Yeast. If you bake at home treat your family to a yummy nut and spice bread soon!

**Nut and Spice Bread**

1. Sift into large bowl 2 cups once-sifted all-purpose flour. Add and mix in 1/4 cup butter or margarine.
2. Measure, measure into cup 1/2 cup lukewarm water. Sift in 1 teaspoon granulated sugar. Sprinkle with contents of 1 envelope Fleischmann's Active Dry Yeast. Let stand 10 minutes, THEN stir well.
3. Beat well 2 eggs. Stir in dissolved yeast, milk mixture and 1/2 teaspoon vanilla. Make a well in flour mixture, stir in liquid; beat until smooth. Work in an additional 3 cups (about) once-sifted all-purpose flour.
4. Punch down dough. Shape into a ball. Roll out into a rectangle on board sprinkled with spice mixture. Sprinkle the dough with nuts; fold dough over nuts, then fold into quarters. Roll out again into rectangle. Repeat until spice mixture is all used. Roll into 6 x 15 inch rectangle. Cut each half into 3 strips and braid loosely place on ungreased cookie sheet. Cover. Let rise until doubled in bulk—about 45 minutes. Bake in a moderately hot oven, 375°, about 30 minutes. Yield—2 breads.

"Where Quality Costs No More"

Penticton, B. C.

MR. AND MRS. ALLEN DALE CAMPBELL  
—Sunderwood Studio.

## Heirloom Wedding Band Is Given to Bride In Pretty Autumn Nuptials

An heirloom wedding band formerly worn by the groom's grandmother and later by his mother was placed on the finger of Judith Lorraine Smith when she exchanged marriage vows with Allen Dale Campbell at a pretty ceremony Thursday evening, November 7, in the IOOF Hall. E. B. Godfrey officiated for the daughter of Fredrick Smith of West Summerland and the late Mrs. Smith and the son of Mrs. Raymond Campbell, Penticton, and the late Mr. Campbell.

Her lovely floor length gown

was fashioned of white nylon net and lace over satin and crinolines. A chapel veil of illusion was clasped by tiara misted with pearls and sequins. She carried a bouquet of white carnations, red roses and valley lilies. Her jewellery consisted of pearl earrings and the diamond engagement ring of her late mother. Ballerina frocks of blue nylon net over taffeta were worn by the bride's attendants, Miss Connie Smith, as her sister's maid of honor, and Miss Anita Jones, bridesmaid. They wore matching

elbow length net mittens and orange blossom hair circlets. They carried nosegays of white carnations and yellow roses.

Little Miss Darlene Campbell, niece of the groom, was a sweet flower girl in a pink nylon dress. She carried a white satin basket of orange blossoms and wore matching blooms in her hair.

The heirloom wedding ring was carried on a white satin cushion by Glen Campbell, the groom's young nephew. He wore a blue velvet and white satin suit.

Archie Campbell, the groom's brother, was best man, and another brother, Donald Campbell, and a cousin, Philip Campbell, ushered. Wedding organist was Mrs. Richard Main, and soloist was Miss Doreen Hickson. A reception followed in the IOOF Hall which was beautifully decorated for the occasion with richly colored autumn blooms. The toast to the bride was proposed by the groom's uncle, Ervin Campbell.

When the newly married couple left for a honeymoon trip to the States, the bride was attractively attired in a blue and white sheath with pale blue coat, matching hat and white accessories. Red and white roses formed her corsage. They will reside in Penticton on their return.

Dr. Fred Waldron returned to Victoria on Monday after spending several days at the home of Mr. and Mrs. Ivor Jackson, Trepianer, and attending the Sutherland-Jackson wedding on Saturday.

N. F. Whinton has arrived from Winnipeg for a short holiday at the home of his son and daughter-in-law, Mr. and Mrs. C. O. Whinton, enroute to Vancouver to see his daughter.

Mr. and Mrs. Dick Renneberg with son Jerry, of Revelstoke, spent the Remembrance Day weekend at the home of the latter's parents, Mr. and Mrs. John Knoblach.

Mr. W. D. Miller has left for Oliver to be with her sister, Mrs. E. Lawley, during the next few days.

## PEACHLAND

### Election of Slate Is Postponed By W.I.

The annual meeting of the Women's Institute was held on Friday, November 8, in the Municipal hall, Mrs. W. H. Wilson and Mrs. F. E. Witt were named to act on the community Christmas tree committee and Mrs. F. Wright was asked to audit the books.

Due to the prevalence of the flu, the meeting was not very well attended and the election of officers was postponed until the December meeting. Mrs. J. H. Blackey, Westbank, has been invited to attend the same meeting to tell of her experiences on her recent trip to Ceylon. At the December meeting the members also exchange Christmas gifts.

The president, Mrs. Kurt Domi, gave a full report on the year's work.

Mrs. L. B. Fuls was hostess for the afternoon.

Steve Scammell was home from White Rock for the long weekend. On his return to the coast he was accompanied by Mrs. Scammell.

## BRIDESVILLE

### Prizes Are Awarded At P-TA Social Event

Many prizes were awarded for novel and original costumes at the recent Halloween party held under the sponsorship of the Bridesville Parent-Teacher Association.

Following an evening of fun and a snake parade, prizes were presented to Sharon Flexhang, first, and Jo Lawless, second in the Halloween costume group; L. Schorn and Don Spooner, first and second for original dress; Van Dyke and Connie Spooner, comic.

In the Junior group prizes were won by Janet Gillen and Sue Garrett, first and second; Linda Flexhang and Steve Shamber, first and second for Halloween costumes; Drew White and Carol Shamber, original, and Norman Gillen and Pat Boyo, comic.

Handouts of peanuts, apples and candy were given to all guests before the games started. In the various rooms, refreshments were served and a show of fireworks concluded the evening.

The whole district was shocked at the death of Mrs. Karl Genbach, the former Jean Camp-

bell of Kettle Valley.

On Saturday, Nov. 11, 27 men turned out to pour cement for the foundation of the centennial project. The Recreation Commission furnished coffee and doughnuts which were served by Mrs. Feldmont and Mrs. Schorn.

Mr. and Mrs. M. Hambley and young son of Fernie visited Mrs. Hambley's parents last week-end. Mrs. Seimens returned to Fernie with them for a holiday.

Novel and attractive Christmas gift items will be featured at St. Saviour's Anglican Church bazaar on Saturday afternoon in the parish hall. Four small kiddies are fascinated when Mrs. T. M. Watt displays one of the unique sale articles, a child's crib or bed cushion made to represent a

gay mustard-yellow fish with green gills and vivid blue eyes. Pictured with Mrs. Watt, who is convening the needlework booth, are small Nancy Cranna in front of her brother, Peter, and standing in back, are, left to right, Diane and Debbie Watt.

## St. Saviour's Annual Parish Bazaar Tea Will Be Held Saturday Afternoon

A wide variety of attractive merchandise will be offered for sale at the annual fall bazaar and tea to be held Saturday afternoon under the sponsorship of all organizations within the parish of St. Saviour's Anglican Church. Mrs. R. F. Campbell is general convenor of the bazaar features and Mrs. Don Moog is in charge of the afternoon tea which will be served in the lower parish hall from 2 p.m. to 5 p.m.

An artistic and novel Christmas motif will set the theme for decorations in the tea room and in the upper hall when many booths with the attractive sale items have been arranged by the various church groups. Mrs. M. A. Van Camp is convening the decorations committee.

The Afternoon Branch of the Women's Auxiliary is featuring a booth of home cooking under the supervision of Mrs. Nellie Daines; a sewing stall by Mrs. W. E. Giles, and candy by Miss Gladys Eyre.

A needlework table with Mrs. T. M. Watt in charge will be featured by the Evening W.A. This group is also holding a raffle on a food hamper and Mrs. A. T. Cross is convening this popular attraction.

The Guild will sponsor four features, Christmas decorations by Mrs. T. M. Osborne; a delicatessen table by Mrs. Richard Cavood; a treasure booth supervised by Mrs. J. D. Southworth and a turkey raffle by Mrs. Lawrence Bartlett.

Many pretty handkerchiefs will be offered for sale at the Altar Guild's stall which is being convoked by Mrs. T. S. Weaver. Cartons of delicious mince meat will be sold by members of the Girls' Auxiliary under the direction of their leader, Mrs. A. R. Eagles; pine cones by Mrs. R. M.

Freeman and members of the Junior Auxiliary, and candy by the Cubs.

The Poplar Grove Women's Auxiliary will sponsor a booth of farm produce, home cooking and miscellaneous articles. This

will be under the supervision of Mrs. H. J. Cossetine. Guests will be received during the afternoon by Mrs. Eagles and Mrs. Campbell, general convenor of the annual fall fund raising event.

## Nice-for-Now Products Include Novel Apron

By ELEANOR ROSS  
Cold weather is harder on the hands. The fact that we're doing more cooking and working around the house at this season doesn't help hands any, either.

Do you rub your damp hands on your apron? Or, worse, do you ever forget and find yourself wiping them on a good dress or party apron, as you do the last-minute fixing on party refreshments?

To help solve this problem, you can purchase aprons with snap-on towels. You may prefer to make your own.

HOW TO DO IT  
If the latter is the case, choose some of those colored terry cloth hand towels. Sew a strip of snaps along the right side of the apron waistband and along the edge of several towels. At least three towels are needed for each apron.

When a towel is soiled, just snap it off and snap on another. The towels are easily washed. No ironing's needed.

Out shopping for cold-weather sleeping bags for the toddler set? Very sensible is a slumber job with "bull-in" plastic - soled booties. They machine-wash with the greatest of ease. As an added attraction, the plastic soles can be wiped clean with a sudsy cloth, as is needed. This prevents sheets from getting soiled with dirty footprints when the children clamber into bed.

HEATED BLANKETS  
Have you ever slept under an electric blanket?

On a cold night it's pure bliss, even if you're not the proverbial shivering soul. Just one lightweight blanket, that's all that's needed to keep you warmer than you would be under a load of plain, unheated coverings.

If you've ever been uncertain about the advantages of a blanket wired for warmth, just try

## You Should Practice Stitching Perfection

By MARY BELL  
While mending is a monotonous but necessary evil in your sewing life, so play a game of perfection while you sew up gaping holes in bed sheets and jean suits.

There are several ways to mend and darn by machine and hand—you probably have your own favorite way for the hole in question.

But whichever in your means of tackling the tears, practise stitching perfection as you drum away and you'll have fun and improve your sewing at the same time.

Try for even rows of stitching, neat fold-unders when you are using a backing, and practise good corner and curve turns.

Mending a pair of child's jeans or coveralls becomes a challenge to the imagination if you embroder—by hand or machine—the knee and seat patches before you sew them on top of the hole.

"Easy, please" across the seat, "left" and "right" on each knee or a picture of a gun on a hip tear gives the child a new happy lease on the garment.

## FASHIONABLE ALLIANCE

BY ALICE ALDEN

A highly successful partnership, that of leather and fabric, is here again to bring the practical and the pretty to suburban and country wardrobes. Alfred Alfus does a wonderful suit of lustrous leather and silk tweed, giving each its full due, the leather shaped into a cocoon jacket with raglan shoulders. The fabric lines the jacket and is also deftly used as trimming. The skirt is slim. A lovely leather luxury that is properly practical.

## LET'S EAT

### Molasses and Raisins Flavor Oatmeal Bread

Since rolled oats are the cereal with the highest protein value, the Chef and I set to work to evolve new ways to use them.

"What we have discovered is surprising," observed the Chef. "We shall give all these ideas to our readers, oui? But, today, I suggest we concentrate on our Molasses - Oatmeal - Raisin Bread."

#### MANY POSSIBILITIES

"It is delightful, with butter and or orange marmalade for breakfast. It is perfect when spread with whipped cream, cheese and cut in finger-lengths for tea. It adds variety to lunchbox meals. It is easy to make. It keeps moist for days."

**Molasses - Oatmeal - Raisin Bread:** In 2-qt. bowl, mix 3 c. uncooked quick-rolled oats and 1½ c. milk; cover. Let stand 1 hr.

Beat 2 eggs light. Add one-third c. brown sugar; continue to beat until fluffy. Add ¼ c. dark molasses. Stir in 3 tsp. double-acting baking powder and 1½ tsp. salt.

Add to the oat mixture; gently stir. Do not beat. Then stir in 1½ c. raisins and 2 tbsp. melted shortening.

Transfer to a waxed-paper lined loaf pan 9"x5"; bake 1 hr. in moderate oven, 350 F. Cool. Wrap in waxed paper or foil; store 24 hrs. before slicing.

#### TOMORROW'S OVEN-DINNER

Hot or Chilled Vegetable Juice  
Roast Shoulder of Veal  
Potatoes Italian  
Sausaged Acorn Squash  
Lettuce Wedges  
Chutney Dressing  
Pears Baked with Walnuts  
Coffee or Tea

Potatoes Italian: Into 2-qt. casserole, pour drippings from half-cooked veal. Add 1 minced small

onion, 1 tsp. salt, ¼ tsp. marjoram and 1 c. hot tomato juice. Add 8 peeled small potatoes and boiling water to the depth of 1 in. Cover; bake 40 to 45 min., or until potatoes are fork-tender. Turn once.

**Sausaged Acorn Squash:** Cut 1 small acorn squash in halves for each 2 persons. Scoop out seeds. Steam-boil about 15 min. in 1 in. water. Fill with mixture of sausage meat, chopped onions and celery. Place in a pan. Pour in ½ in. hot water. Bake 40 min. in a mod. oven, 350-375 F.

**Pears Baked with Walnuts:** Peel 1 pear for each 2 persons. Cut pears in halves. Remove cores.

Fill with equal parts halved seeded Tokay grapes, brown sugar and chopped walnuts.

Place in a casserole. Pour in equal parts water and diluted orange juice to the depth of ½ in. Cover. Bake 45 min. Serve warm or cold, plain or with whipped cream cheese.

#### TRICK OF THE CHEF

Just 45 minutes before a shoulder of veal will be done, spread it with fine dry crumbs spiced with seasoning salt.

### PEACHLAND

V. Pocock, who has been holidaying at the Totem Inn for several days, is leaving for Vancouver on Tuesday and will be accompanied by R. B. Spackman.

Mr. and Mrs. Harold Domi and infant daughter, Barbara, of Penticton, spent the weekend with the former's parents, Mr. and Mrs. Kurt Domi.

Jerry Grosse spent the weekend at the home of Mrs. Doris Beatty, having motored from the coast.

## AROUND TOWN

### Actettes Will Hold Bake Sale Saturday

The Actette Club will sponsor a sale of home cooking Saturday in the Super-Value store under the co-convenership of president Mrs. Stewart Lyon and Mrs. H. A. Coates.

Special foods to be featured at the sale, which will open at 2 p.m., will include breads, rolls, tea squares, fruit and nut loaves.

Plans for the fund-raising project were discussed at the Actette's monthly meeting held at the home of Mrs. Rudy Labonte. Members were requested to have their donations at the home of Mrs. Coates by 11:30 a.m. Saturday.

Other business at the meeting attended by 17 members dealt

with choosing the forthcoming year's slate of officers. As absent members are not allowed to cast a vote, complete returns will not be in for an approximate ten days when the results will be announced.

Refreshments and a social hour concluded the meeting.

Dr. and Mrs. W. J. Rowe and Dr. and Mrs. Michael Selwood, accompanied by former Pentictonites, Mr. and Mrs. Roy Chapman of Kelowna, spent the holiday weekend visiting in Spokane.

Mrs. T. E. Ball and small daughter, Nancy, arrived from Victoria yesterday to spend some

time with the former's parents, Mr. and Mrs. K. I. MacKenzie, prior to travelling abroad to join Lieut. Ball, who will be stationed in Germany with Queen's Own Rifles.

Mrs. Gus Moeberg, Roy avenue, has returned home after visiting for the past three weeks with friends at White Rock, Vancouver and Victoria.

Miss Carol Malmberg, Penticton's Queen Val-Vedette for this year, arrived home during the weekend to visit her mother, Mrs. C. H. Malmberg. Miss Malmberg has been in Vancouver taking a six-week course at the Dapine Ibbotson School of Modelling.

The regular meeting of the Carmi Avenue School P.T.A. will be held tomorrow at 8 p.m. This is an important meeting as plans will be discussed concerning the bazaar and "Open House" to be held November 25. An invitation to attend is extended to all par-

ents and others interested.

Mr. and Mrs. Herman Akerman spent the long weekend visiting with the latter's sister and brother-in-law, Mr. and Mrs. Joe Parrott, of Naskasp.

Howard Wright returned home Saturday after spending a week in Prince George on a business trip.

The Mizpah Circle of the Women's Federation of the Penticton United Church will meet tomorrow afternoon at 2:30 p.m. in the church parlor.

## Serve Smooth Sauce With Baked Fish

Mock Hollandaise sauce served with fish baked in aluminum foil is a delicious addition to any meal.

To prepare for baking, wipe two pounds of fish with damp cloth, and sprinkle with one teaspoon salt. Wrap fish in greased aluminum foil. Secure the seams

of the foil and pinch them to make them steam tight.

Place on a shallow pan and bake in an oven preheated to 450 deg. F. to 500 deg. F.

Allow approximately 10 minutes per inch thickness for fresh fish and about 20 minutes per inch thickness for frozen fish.

### MOCK HOLLANDAISE SAUCE

2 tablespoons butter  
2 tablespoon flour  
¼ teaspoon salt  
1 cup milk

Make a white sauce with the above ingredients. When the sauce has thickened add 2 tablespoons butter, 1 tablespoon at a time. Add 1 beaten egg yolk. For a smooth sauce, add 2 tablespoons sauce to the egg yolk, then add the mixture to the remaining sauce. Remove from heat and add 2 tablespoon lemon juice.

*where millions buy with confidence*

Canadian homemakers from coast to coast know that they can place their confidence in IGA. Each of the more than 600 Independent Retailers displaying the famed IGA Oval continuously strive to bring to the shoppers in their community the finest in quality foods, produce and meats at the lowest possible price. ## GIANT RUSSIAN ROCKET AMAZES WESTERN OBSERVERS

This 70-foot rocket, the largest shown in the impressive military parade in Moscow marking the 40th anniversary of the Bolshevik revolution, has western military observers guessing. The cigar-shaped rocket is believed to be at least in the 1,500-mile range, perhaps even an inter-continental ballistic missile.

## Washington Growers Face Tough Marketing

WENATCHEE, Wash., (AP) — With its biggest crop in years all picked and being packed, the Washington apple industry is running into an unusually tough market season.

The general situation, as outlined to the Wenatchee World, by authoritative sources is:

U.S. markets are receiving a heavy early flood of fruit from all apples areas, depressing the price. Washington fruit is being sold now at an f.o.b. price almost 60 cents below the cost of producing a packed box of apples.

The latest, most reliable estimate places the Wenatchee-Okanagan and Yakima districts' crop for fresh shipments at 34,916 carloads, compared with just over 20,000 a year ago. This is the biggest crop since 1950.

### ABOVE AVERAGE

The U.S. crop, an estimated 117 million bushels, also is above average.

With that kind of supply, growers say, the price was expected to be the lowest in recent years. But some other factors have weakened prices even more.

Ironically, an ideal growing season hurt. Delicious apples, grew unusually large, on the trees. Although in some years big apples demand a premium price, their great number this year has depressed the price. Larger sizes are bringing almost a dollar per box less than medium-sized fruit.

The so-called "pumpkins" are less popular with the average apple buyer because they are too big for out-of-hand eating.

The big-size apples also tend to break down earlier, thus having a shorter storage life.

Hot weather just before harvest time caused much of the red color to bleach out in many orchards. Growers had to leave fruit on the trees longer, waiting for cold weather to return the blush to the fruit.

### OVERLY MATURE

As a result, much fruit was finally picked overly mature. It, too, has less storage life.

That produced pressure to market much of the crop as early as possible. A drought in Eastern apple districts also produced fruit

that had to be sold early, aggravating the early season pressure for sales.

Studies indicate, authoritative sources say, that it costs the Washington grower an average of \$1 a box to grow apples. Adding the cost of harvesting, packing, storage and other charges, the final investment is raised to about \$2.96 a packed box. In recent days the average f.o.b. price in Wenatchee for all varieties and sizes, however, has been less than \$2.40.

There is some hope among Washington apple growers that the gloomy market picture will improve.

## No Increase in Manpower Ceiling

OTTAWA (CP)—Defence Minister Pearson announces there is no intention to raise the manpower ceilings of Canada's armed forces, now totalling 120,000.

The reason he gave Frank Christian, SC-Okanagan Boundary in the Commons is that the forces' manpower needs are dictated by Canada's defence commitments.

He said the relationship between discharges and enlistments had been very satisfactory in recent months, accounting for an increase of 1,074 servicemen. The armed forces at Sept. 30 totalled 118,500.

At that time the RCAF was beyond its manpower ceiling of 51,000. The navy's ceiling is 20,000 and the army's 49,000.

## Council Endorses Museum Project

Establishment of a city museum on the lower deck of the S.S. Sicamous, was approved by the city council without a hitch last night.

This was in sharp contrast to the council meeting of the previous week at which introduction of the bylaw for establishment of the museum, sparked a bitter debate in which Ald. P. F. Eraut strongly reiterated his objection to having the museum subject to an admission fee to the vessel, levied by Mrs. W. Esson who has the concession lease on the ship.

Ald. Eraut, emphasizing that he was heartily in favor of the museum but did not like to see it under the control of "private enterprise", had been criticized by his fellow aldermen for bringing up objections that were voted down several months ago.

Vote in favor of the museum bylaw, given final reading last night, was unanimous. It provides for renovation of the lower deck of the S.S. Sicamous to accommodate the museum. This work has been underway for

some time. The bylaw also includes formal acceptance by the city of an extensive collection of artifacts, donated by R. N. Atkinson of the city, as a nucleus for the museum exhibits.

Mr. Atkinson is to be employed by the city as curator of the museum.

Council last night also authorized purchase of insurance on the fixtures now being installed for the museum. Cost was estimated at 71 cents per \$100 of value. Insurance on the exhibits will be discussed later when the vessel is ready for them.

On council instructions from the previous week, H. G. Andrew, city clerk, reviewed developments leading up to council's decision to establish the museum aboard the S.S. Sicamous.

He quoted from the June 10 minutes of council recalling that Ald. J. G. Harris had reported Mrs. Esson's charge of 25 cents for adults and 10 cents for children would, apply to everyone boarding the ship whether they wanted to see the museum or not. Mrs. Esson also was reported as stipulating that museum hours could not be outside the hours now in effect for viewing the ship, namely 11 a.m. to 6 p.m. and 8:30 p.m. to 10 p.m. and that the museum would be open only such hours as the city curator could be present.

Mr. Andrew said that minutes of July 2, reported city council as accepting Mrs. Esson's conditions with Ald. P. F. Eraut registering a negative vote.

## Oil Prospecting Teams Attacked

ALGIERS (Reuters)—A French oil company has threatened to recall all its oil-prospecting teams from the southern Sahara unless they are guaranteed safety against attack from Moslem insurgent bands, official sources report.

Orders already have been given by the Compagnie des Petroles d'Algerie to two of its teams operating in the Timimoun region, where a prospecting party was attacked last week, to withdraw to desert strong points.

## Accuses CBC Of Communist Programming

OTTAWA (CP)—Liberal Henry Murphy has accused the publicly-owned CBC of using a program pattern similar to that used in Communist countries.

Speaking in the Commons, the MP for Westmorland, N.B., said: "Although I am not one of those who look for a Communist under every bed, I do not like the way things are going with respect to this programming."

"The pattern, if it is a pattern, coincides with that used by Communist groups and carried out in Communist countries."

## SAFETY SPEAKER

Ned H. Dearborn, of Chicago, president of the National Safety Council, will be special guest and principal speaker at the 1957 British Columbia Safety conference to be held November 21 and 22 at the Hotel Vancouver. The two-day conference, with sessions on industrial, community and traffic safety is sponsored by the B.C. Safety Council and its 11 affiliated community safety councils throughout the province.

## Space Flight Law Advocated

MONTREAL (CP) — There ought to be a law governing movements of space vehicles, says Dr. E. Pepin, director of the Institute of International Air Law at McGill University.

Dr. Pepin points out existing conventions governing international flight, adhered to by 76 member nations of the International Civil Aviation Organization are outmoded by space travel.

## Atomic Weapon Arming Urged

PARIS (AP) — Arming of all members of the North Atlantic Treaty Organization with atomic weapons has been urged by a French Senator.

The proposal for "a common program, not only in research, but in the use of atomic weapons," was put before a closed session of the military committee of NATO's parliamentary assembly by Gen. Marie-Emil Bethouart.

Explaining his suggestion in an interview, Bethouart said he expects the plan to cover all NATO countries, including West Germany.

Similar suggestions have been made in Washington for a NATO atomic stockpile.

## PROVINCIAL ROUNDUP

### BODY FOUND IN WATER

KAMLOOPS (CP)—The body of 45-year-old Lloyd George Christie of Kelowna was found in water beneath the CNR bridge here yesterday. RCMP say there is no suspicion of foul play.

### GIVES \$250,000 TO UBC

VANCOUVER (CP) — University of B.C. reached the \$1,000,000 mark in its drive to raise \$5,000,000 yesterday with a gift of \$250,000 from J. C. Robson, pioneer New Westminster lumberman. Funds raised through the UBC development campaign, opening shortly, will be matched by the provincial government.

### REMANDED TO NOV. 20

VANCOUVER (CP) — Adelaire Joseph Fleurant, 43, was remanded to Nov. 20 when he appeared in police court yesterday on a charge of murder. He is charged with murder in connection with the slaying of 52-year-old Hilda Dufresne, whose battered body was found in a city hotel room during the weekend.

### MAYORALTY OPPONENTS

PRINCE GEORGE (CP) — Mayor John R. Morrison announces he will stand for reelection in the Dec. 12 municipal elections. Alderman Carrie Jane Gray has also announced that she will enter the mayoralty race. She has taken a firm stand against the city manager plan which Mayor Morrison wants to put before the electorate.

### PREPARE FOR STRIKE

NANAIMO (CP)—Preparations for a strike of pulp mill workers, first in more than 25 years in B.C., have started at Macmillan and Bloedel's Harmac plant in Nanaimo. Throughout the province 6,000 men, members of the Pulp and Sulphite Workers and United Papermakers Unions, will be affected. The strike follows rejection by the two unions of a 7½ per cent wage increase. The unions are asking 12½ per cent.

## World Atomic Session Backed

OTTAWA (CP) — Prime Minister Diefenbaker declares he is sure all free nations would approve convening of a non-governmental conference of world atomic scientists.

He was replying in the Commons to CCP Leader Coldwell who suggested that the Canadian government encourage holding of such a meeting as proposed by six Russian scientists.

Canadian-born industrialist Cyrus Eaton, instrumental in convening a similar meeting at Pugwash, N.S., earlier this year, has approved such a conference and suggested that it be held in Canada, the West Indies or India.

PHONE 4002

Hi, neighbour

Here are some handy tips on storing your tractor for the winter . . . they will save you time and money next spring!

First, either drain the radiator and block completely, or fill with the correct amount of anti-freeze. If storing for very long periods, also drain the entire fuel system, fuel tank, settling cup, fuel lines, screens and carburetor. Remember, fuel left in the tractor for a long period of time may form harmful gum deposits.

Next, remove the spark plugs and squirt light engine oil into each cylinder. Oil the valves and valve mechanism, then turn the engine over a few times to distribute the oil. This prevents rust and corrosion internally.

Now, lubricate the tractor thoroughly to remove any old grease which may contain moisture, acids or other impurities. Wash and clean the dirt off the outside of the tractor . . . and paint over any bare spots to prevent rust. Make sure the battery is fully charged and stored in a warm, dry place. Check frequently and recharge about once every thirty days.

Last but not least, don't let your tractor stand in the open or be a roosting place for the chickens. If you can't put it in a machine shed, then cover the tractor with a tarpaulin.

order your petroleum supplies now . . .

## Rossland Gains On Pace Setters

ROSSLAND (CP) — Rossland Warriors won their third of the Western International Hockey League Thursday night as they downed the second-place Trail Smoke Eaters 5-1.

The win put last-place Warriors within four points of the second-place clubs, Trail and Nelson.

Trail dominated play in the first period with centre Garth Hayes finding the range late in the period while Rossland was a man short to give the Smoke Eaters the lead 1-0 for the only time in the game.

## Boston Coach Cracks Whip

BOSTON (AP) — Milt Schmidt, coach of Boston Bruins, Tuesday stepped up the tempo of the practice sessions in an effort to put more life in the National Hockey League team.

The Bruins, Stanley Cup finalists last season, now are fourth in NHL standings.

"We're going to have longer and more strenuous practices," Schmidt said.

Sunday night's 4-2 triumph over Detroit was only the second Bruins' victory in their last 10 games.

"I'm not accusing anybody of loafing, but there is plenty of work to be done," Schmidt said.

Rossland took over in the middle frame with Trail netminder Seth Martin taking on the appearance of a contortionist in blocking rubber off the sticks of the Warriors. Defenceman Don Fletcher tied the game up on a solo rush.

Norm Lenardon put Rossland in front at 6:28 mark when he fished a puck loose from the grip of Martin. Rossland's Pinoko McIntyre blocked a teammate's shot on the crease and beat Martin with a backhand drive to close out the period 3-1 in favor of the home team.

Steve Chorney polished off a neat two-way passing play with defenceman Vic Lovendahl for the fourth Rossland marker at the middle way mark of the third period.

Bud Andrews shot hit the top bar of the net and then bounced in behind for the final Rossland goal.

**LINEUPS**  
Trail — Goal, Martin; defence, Hamilton, Conn, Andry, Robertson; forwards, Hayes, Hockley, Tambellini, E. Secco, Ryden, Hicks, Buraw, Godfrey.  
Rossland — Goal, Zanier; defence, Fletcher, Kralger, Lovendahl, Ferguson, forwards, Lucchini, Hyasop, Lenardon, McIntyre, Jones, Andrews, Feras, E. Secco, Chorney.

**SUMMARY**  
1. Trail, Hayes, (Kromm, Conn) 1905. Penalties: Lovendahl, 17:08; Feras, Hayes 19:11; Kralger 19:50.  
Second period — 2. Rossland, Fletcher 2:16. 3. Rossland, Lenardon (McIntyre, Lucchini) 6:59. 4. Rossland, McIntyre (Kralger, Lenardon) 10:06. Penalties — Hamilton, 5:16; Robertson 6:57; Ruppen (10-min. miscon.) and game misconduct 12:02; McIntyre 14:21.  
Third period — 5. Rossland, Chorney (Lovendahl) 9:09. 6. Rossland, Andrews (Hyasop, Jones) 13:00. Penalties — Jones, Conn 12:04; Hayes 12:12.

HELPING HAND

It looks here as if the "enemy" is giving a lift to Trautmann, Manchester goalie, who actually is using an Arsenal player as a prop to reach the ball during recent Arsenal-Manchester City game in London. In spite of a "helping hand" from the opposition, Manchester lost the match 2-1.

### CHALLENGES CHAMP

MONCTON, N.B. (CP) — Norman Gautreau, Maritime welterweight boxing champion, Tuesday night issued a challenge to Canadian titleholder, Johnny Salked of Calgary.

### JOCKEY INJURED

TORONTO — (CP) — Ex-jockey Pat Mulrooney, 41, was injured and his horse Blessed Event killed Tuesday in a collision with a riderless horse during a workout at Woodbine racetrack.

## DETROIT PLAYERS QUIT ASSOCIATION

# Red Wings Stand Alone

DETROIT (CP) — Detroit Red Wings, who have played this season as if they don't belong in the National Hockey League decided Tuesday they don't belong in the NHL Players Association.

The players "publicly disavowed themselves from the . . . association and its lawsuit" in a press release issued by captain Leonard (Red) Kelly, attorney John A. Hird and signed by all 19 other players.

A letter also was sent to the association outlining the Detroit position.

Hird said a \$3,000,000 anti-trust lawsuit filed last month against the owners and president Clarence Campbell was "unauthorized — and we can prove it." Wings, tied with Toronto Maple Leafs for the NHL cellar, have won only four of 15 games and have had 49 goals scored against them — highest in the league. Detroit ended first in the NHL in eight of the last nine seasons. The release said "the president and counsel of the association have acted in detriment to the

better interests of the players, and hockey in general."

### NEEDS MORE DETAILS

The association's president is Ted Lindsay of Chicago Black Hawks, former Detroit captain, traded last summer. Its counsel is the New York law firm of Milton M. Mound and J. Norman Lewis.

Mound said, "I will have nothing to say until I have heard from Lindsay or the other officials of the association and until I get more details."

In Toronto Tod Sloan, Maple Leaf representative on the association, said the withdrawal "won't change a thing."

"It's too bad they decided to

pull out but we still have five clubs solidly behind the association," he said.

Last week, the Toronto players unanimously asked that the association be certified as their bargaining agent. They also expressed approval of the lawsuit.

In Montreal Campbell said only that "the statement speaks for itself."

### NO CONSENT

Hird said the players dropped out because their consent was not secured before the suit was filed, because they asked and did not receive reasons for filing the suit and because they did not receive papers to indicate just what the association is — as to legal or-

ganization, constitution and by-laws.

"The association just isn't what it's cracked up to be," said Hird. "Its manner and method are all wrong and we can prove it."

The players said they agree with the "purported purpose" of the association. However, they said they believed they could accomplish these goals in direct talks with management.

They said a meeting had been called by Norris and general manager Jack Adams and suggested requested with team president other teams might follow the example. Norris and Adams have said they would welcome such a meeting.

# Penticton and District PEACH FESTIVAL ASSOCIATION FINANCIAL REPORT

## Directors' Report

The officers and directors of the Penticton and District Peach Festival Association are pleased to present the financial statement for the year ending Oct. 31, 1957.

The statement shows excess of revenue over expenditures in the amount of \$2,281.99. It should be noted, that this year we included in our disbursements \$1,052.85 for capital expenditures. This included, the new Peach Bowl dressing room, new midway electrical service and additional sound equipment.

This year directors decided to act on a recommendation passed on from the 1956 directors to step up the entertainment. We decided to bring in spotlight review, a nine act show, for Friday and Saturday nights and a Saturday afternoon matinee. This addition to our entertainment proved to be acceptable.

Space does not permit me to mention names of many good people without whose efforts the Peach Festival could not be accomplished.

First of all there are fifteen directors, who are directly responsible for the management and direction of the show.

The Ladies Auxiliary to the Peach Festival make an outstanding contribution.

The service clubs, including the Penticton Junior Chamber of Commerce, the Penticton Rotary Club, Penticton Kiwanis Club, Penticton Board of Trade, Penticton United Travellers Association,

Penticton City Promenaders Square Dance Club, the Aquatic Club, and many others, all helped to make the Festival a real community effort and a very worthwhile one.

Assistance given by the Mayor and Council; the Parks Board and the Penticton School Board is appreciated.

Those who are familiar with the history of the Peach Festival will remember the dark days of 1954, when the Peach Festival Association had a deficit of nearly \$11,000. At that time a group of men made up their minds the show could survive. From this year's operations we have paid the bank \$2,300 reducing the bank loan to \$2,200. All outstanding accounts have been paid in full. In addition we have cash in the bank \$504.14 to start 1958 operations.

There were more visitors attending our show than ever before. Hundreds of them told us how much they enjoyed the Peach Festival week and the show we provided. They will be back again and again. We must provide even bigger and better shows in future years. We need more local support. The Peach Festival is one of our permanent assets and it definitely helps our economy. Every business man and every individual in the city benefits directly or indirectly by this activity. Your directors earnestly solicit your whole-hearted support for 1958.

Wm. A. Rathbun, President.

## An entirely new Cadillac classic in styling, luxury and performance!

Seldom in Cadillac history has there been an announcement as significant as the message you are now reading.

For this is the announcement that introduces the magnificent new 1958 Cadillac—the finest and most advanced motor car ever to bear the celebrated Cadillac name.

Certainly, one glance at its extraordinary grace and symmetry will tell you instantly that it is motordom's masterpiece, in styling.

Its new sweep and stature, its remarkable new rear fender design, its dazzling new grille and four-

headlamp system, and its tasteful use of chrome and color . . . all mark it as a singularly beautiful and majestic automotive creation.

Surely, one look at its marvellous new Fleetwood coach-crafting will convince you that this is motordom's masterpiece in spaciousness and comfort and luxury.

There are exciting new fabrics and leathers . . . wondrous new beauty of appointments . . . a completely new instrument panel design . . . and a whole host of new passenger conveniences.

And, unquestionably, a single journey behind the

wheel will reveal why this is motordom's masterpiece in performance.

There is a spectacular new high-performance engine . . . wonderful new balance and ease of handling . . . an even smoother, more responsive transmission . . . and, as an option on every model, the marvel of Cadillac air suspension.

It's all new—it's all wonderful—and it's all waiting for you today in our showroom.

We urge you to see and drive the 1958 Cadillac at your earliest convenience. We will be delighted to welcome you at any time.

**CLAIMS U.S. Has Sufficient Oil Reserves**  
DALLAS (AP) — The president of the American Association of Petroleum Geologists says the United States has sufficient oil reserves to last it through another global war if necessary.

Graham B. Moody of Berkeley, Calif., addressing the annual meeting of the Society of Exploration Geophysicists, said American reserves are enough "to do us many, many years, and, if need be, through another global war."

"The pessimists are generally wrong when it comes to predicting oil reserves on a long-range basis," he said.

**CLAIMS U.S. Has Sufficient Oil Reserves**  
DALLAS (AP) — The president of the American Association of Petroleum Geologists says the United States has sufficient oil reserves to last it through another global war if necessary.

Graham B. Moody of Berkeley, Calif., addressing the annual meeting of the Society of Exploration Geophysicists, said American reserves are enough "to do us many, many years, and, if need be, through another global war."

"The pessimists are generally wrong when it comes to predicting oil reserves on a long-range basis," he said.

**REDLAND Rebekah Lodge No. 12** Annual Valentine Tea, February 8, 1958, Legion Hall. W156

DAILY CRYPTOQUOTE—Here's how to work it:

is AX YDLB AAXR  
is LONGFELLOW

One letter simply stands for another. In this sample A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.

A Cryptogram Quotation

TW L R N W O W F G Z Q E O Q F W G U W  
F E T P C Y W T Z M N R F H D Y M R G  
G U W F U R J Q L R W F Q H

Yesterday's Cryptogram: AND FOR THE FEW THAT ONLY LEND THEIR EAR, THAT FEW IS ALL THE WORLD—DANIEL.

# CONTRACT BRIDGE

By B. Jay Becker

North dealer.

North-South vulnerable.

NORTH

5  
KJ1076

The bidding:

North East South West  
2NT Pass 3 Pass  
3NT Pass 4 Pass  
5 Pass 6 Pass

Opening lead—queen of diamonds.

I think the toughest play in bridge to recognize is the dummy reversal. It is such an unnatural play that it can be easily missed even by the best players.

The difficulty arises not in executing the play, which is a relatively easy matter, but in noticing that the setup for the dummy reversal exists.

West opens the queen of diamonds, which is ducked, and continues with the jack. Dummy plays low and declarer ruffs.

Every suit is solid except there is a possible spade finesse and this can be avoided if a spade finesse is taken and succeeds.

Tomorrow: Two top experts suffer a disaster.

Of course, there is an additional possibility that a third round of diamonds can be led from dummy and ruffed, and if East originally held A-x-x of diamonds, he will be forced to play the ace and dummy's king will become a trick.

The trouble with this line of play is that if it is attempted, and it turns out one opponent started with four trumps, declarer will fall behind in trumps to that player.

So what declarer does to protect against this possibility is to cash the A-Q of clubs to see if the suit breaks 3-2. When it does, he trumps the nine of diamonds. The ace does not fall.

Declarer is by now down to one trump and so are North and East. This is the point at which many players go wrong. The tendency is to draw the last trump and rely on the spade finesse. This would prove fatal as the cards lie.

Actually, the contract is a sure thing at this point. Without drawing the trump, declarer leads a low heart to the ace and ruffs dummy's king of diamonds.

Next he enters dummy with the ace of spades and leads the nine of trump to draw East's eight. On the trump South discards a spade.

The spade loser which existed at the beginning of the hand has disappeared. It is hard to imagine when the play starts that the South's losing spade can go on one of dummy's trumps.

Tomorrow: Two top experts suffer a disaster.

# Four Horoscope

# THE STARS SAY —By ESTRELLIT

## FOR TOMORROW

ALTHOUGH a tendency toward emotionalism may prevail now, you should be able to get along with most folks if you treat all with kindness, tolerance and understanding. Just put yourself in the other fellow's place.

## FOR THE BIRTHDAY

If tomorrow is your birthday, your horoscope indicates that this will be a good year in which to capitalize on your innate versatility and sense of responsibility. Job matters should progress under planetary stimuli but, where financial matters are concerned, you may have to "mark time" until mid-1958. There will be some good opportunities in this respect early in 1958 but, generally speaking, this new year in your life will be one in which it would be better to concentrate on long-range benefits rather than on any immediate gains.

## BROADENED HORIZONS

Chances for travel and some new social contacts should broaden your horizons during

August and September. Be determined to maintain happy domestic relationships during the first six months of 1958, and avoid nervous tension next month. A child born on this day will be loyal, affectionate and courageous.

Oh, I've no complaint. I just come here to hear the others."

# RIPLEY'S BELIEVE IT OR NOT

THE ISLAND OF THE GIANT CAPELASSA  
AN ISLAND BEARING A PREHISTORIC CAPELASSA DESIGN SEVERAL MILES HIGH - CAPED IN THE RED ROCK OF A PRICIPICE. HAS NEVER BEEN DETERMINED

THE SHIPWORM IS NOT A WORM  
New York, Pa. 1911  
San Francisco 1911 m.

THE DOG THAT BETRAYED A KING  
"MATHIE" the pet greyhound of King Richard I of England was captured in the castle of Flint. Ran to its master's side when the Earl of Lancaster was killed and his hand the dog was the first follower of King Richard to fight all day long to the Earl - who became King Henry
